Instructions for using this workbook:

1. On any sheet in this workbook, items you can click on or change the value of are colored YELLOW. All other items are 'locked out'.
2. All sheets have brief instructions at the top of them explaining what to do on the sheet.
3. This sheet is the master table of contents. You can click on any of the links to the left to switch to the corresponding sheet. All sheets have a yellow box in the upper left corner labeled "[Click to return to the start page](#)" that brings you back here.
4. There are 5 other 'special' pages:
 - [Master Score Sheet](#): The grand overview of all events and scores
 - [Printable Medals List](#): Prints out the x top places in each event for use at the awards ceremony
 - [Setup](#): Sets up the titles, team names, and event names
 - [Printable Blank Score Sheet](#): Print out to give hard copies to Event Supervisors if needed
 - [Blank Score Sheet](#): Copy into a new workbook and give to Event Supervisors if needed
5. The remaining sheets are for each individual event and should be filled out with the scores from that event.
6. All place and rank calculations are automatic. You only need to enter scores (and tie breakers / tiers if appropriate).
7. There is built in error checking for things like ties and blank scores. Big red boxes appears when there is an error telling you what it is and where it's located.
8. You must have Macros enabled in Excel, or Excel will give you an error.
9. Questions? Comments? Want to download the latest version or submit a bug report? Click here to visit the project website at:
<https://sourceforge.net/p/sosscoring/> or contact Alan Chalker, alan@chalker.org

Setup Instructions:

1. Fill in only the information in the YELLOW cells. You may leave cells blank.
2. Change # of Teams button: only to change the number of team. You can change the state / name / status (e.g. Competed, No Show, DQ'd) directly below anytime.
3. Change Event Names button: only if necessary, as will delete all event data. You can change the names / type (e.g. Normal, Trial/Pilot, Not Run) at the right anytime.
4. Create Standalone Blank Score Sheet button: allows you to save a single generic score sheet for use by event supervisors.
