TOP SCORE at the NSO 2003 Final Competition: All correct in 5 minutes and 45 seconds.

HELPFUL HINT: Encourage participants to sketch conceptual drawings rather than attempting to break terms into separate syllables.

Example 1: FUJITA SCALE. Draw five tornadoes of increasing size.

Example 2: MARSUPIAL. Draw a kangaroo.

Example 3: ISOBAR. Draw an outline of a weather map and draw several wavy lines from West to East across the surface of the map.
